

Date:

Dear [CHOCOLATE COMPANY NAME],

As a consumer, I am deeply troubled by the chocolate industry's disregard for the rights of the workers who produce cocoa beans. I have just learned from the International Labor Rights Forum that child labor continues to be used throughout the cocoa supply chain in West Africa, despite previous promises that the problem would be alleviated.

I respectfully request that you:

- Identify and take responsibility for every farm producing your cocoa worldwide;
- Make a substantial and sustained investment in Fair Trade Certified cocoa;
- Monitor all farms that produce your cocoa and make sure no child labor is used;
- Commit more funding for rehabilitation and education programs for cocoa children.

I hope that as a leading chocolate company, you will become a leader in the fight for workers' rights and particularly the rights of children and workers around the world.

Sincerely,
